

TRILO M4

Vacuum, Mower, Verticutter

WITH ONE MACHINE, AND THE CHANGE OF A ROTOR, THE M4 IS ABLE TO SERVE TURF MANAGERS IN EVERY SEASON.

The large hopper on this machine provides 5.25 cubic yards of capacity and is equipped with a high dump point for easy disposal of collected material and debris into most standard containers.

The Trilo M4 comes standard with a 12ft suction hose that is perfect for collecting litter and unwanted materials from fence lines, drainage grates, next to buildings, or other hard to reach areas.
