24.5 HP

ZERO TURN MOWERS

Diesel Power, Zero Compromise

ZXD SERIES **DIESEL ZERO TURN MOWERS, BUILT TO MAKE TOUGH** **JOBS LOOK EASY**

The ZXD Series combines powerful 24.5 HP diesel performance, precision handling, and heavy-duty construction to tackle the toughest commercial mowing jobs with ease. Designed for professionals who demand durability and efficiency, it features direct-drive transaxles and a massive 17.1-gallon fuel tank—delivering all day performance with fewer stops.

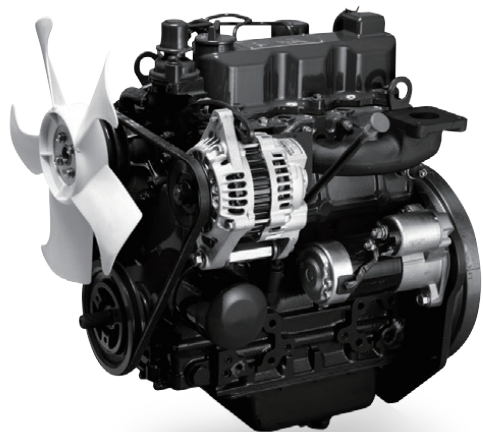

**WE DIG
DIRT**

- KIOTI 1.2L 3 Cylinder Diesel Engine
- 24.5 HP
- Heavy Duty Chassis
- 7-Gauge Fabricated Steel Deck
- Direct Drive Transaxles
- 61 in. (1,550 mm) and 72 in. (1,830 mm) Cutting Widths
- 17.1 Gallon (64.7 Liter) Fuel Capacity
- Hydraulic Deck Lift
- 11 MPH (18 KM/H) Travel Speed

ZXD SERIES

DESIGNED TO DOMINATE DEMANDING WORKDAYS

Fuel Efficient Diesel Engine

The powerful 1.2L 3-cylinder KIOTI diesel engine delivers 24.5 horsepower of dependable, fuel-efficient performance. Built for long hours and tough conditions, this commercial-grade engine offers quiet operation, high torque output, and exceptional durability. Its diesel design means fewer fuel stops, lower operating costs, and the strength to power through demanding mowing jobs with ease.

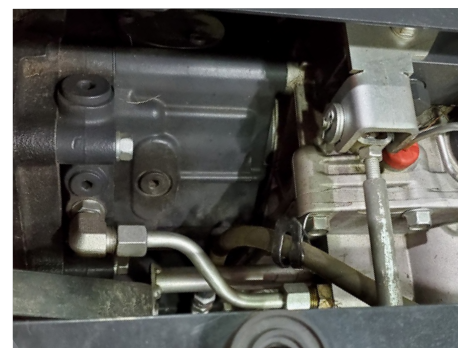

Proven Quality of Performance

KIOTI engines are known for exceptional performance and fuel efficiency. Backed by over 65 years of innovation, they meet rigorous global standards like EPA, CARB, and EEC certifications. Built for reliability and durability, these engines are a trusted choice for a wide range of demanding applications.

Heavy Duty Chassis

From the welded steel frame to heavy-duty components, the ZXD is engineered for long-term use in tough environments.

Direct Drive Transaxles

The beltless design provides superior durability, less maintenance, and improved power transfer for long-term reliability.

7-Gauge Fabricated Steel Deck

A shaft-driven, reinforced, 7-gauge fabricated steel deck provides excellent performance and reliability.

Hydraulic Deck Lift

Streamlines operation by allowing users to raise and lower the cutting deck with the push of a foot lever. This flexibility allows for quick obstacle avoidance, improved mowing on slopes, and easier cleaning and maintenance underneath the mower.

Two Cutting Widths

Choose between 61-inch (1,550 mm) or 72-inch (1,830 mm) fabricated decks to match your mowing needs—ideal for covering large areas quickly with fewer passes.

Anti-Scalp Ball Rollers

4 front and 2 rear anti-scalp ball rollers help maintain an even cut by preventing the deck from digging into uneven terrain, protecting both the turf and mower deck during operation.

Semi-Pneumatic Front Tires / Casters

Offers a smooth mowing experience with puncture-proof tires that grip better and require less maintenance.

Notched Blades

Designed to increase lift and airflow for a cleaner cut, improved grass discharge, and a more even, professional-looking finish.

Independent Wet Disc PTO

Provides reliable, smooth power transfer with durable, self-lubricating discs that resist wear and reduce maintenance for long-lasting performance.

Deck Height Adjustment

Adjust cutting height in precise 0.25 inch (6.25 mm) increments using an easy-to-use dial for consistent, professional results across varied terrain.

ZXD SERIES

COMFORT AND CONTROL DESIGNED FOR LONG HOURS ON THE JOB

Fast Travel Speeds

Maximize productivity with fast forward speeds of 11 mph (18 km/h) and agile, responsive handling—perfect for covering large areas quickly and navigating tight spaces with ease.

Large Fuel Capacity

The 17.1-gallon fuel tank capacity enables crews to mow more acres without refueling.

Articulating Front Axle

Improves ground contact and deck float, helping to maintain a smooth, even cut across uneven surfaces while enhancing stability and ride comfort over rough terrain.

Easy Maintenance Access

Service points are designed for quick access, and the simplified beltless layout minimizes routine maintenance.

Premium Suspension Seat

3-inch plush, high-back adjustable seat with rubber isolators provides all-day comfort.

Foldable ROPS

Fold up the Roll Over Protection System (ROPS) to easily navigate tight spaces and low-clearance areas, then quickly deploy it for full operator safety during normal use.

USB Ports

Stay connected and powered with two convenient USB ports for charging your devices during long mowing sessions.

Convenient Drink Holder

Keep your drinks secure and within easy reach, so you can stay hydrated and focused while on the job.

STANDARD EQUIPMENT

- Direct Drive Transaxles
- 1.2L 3-Cylinder KIOTI Diesel Engine
- 7-Guage Fabricated Steel Deck
- Hydraulic Deck Lift
- Adjustable Seat
- LED Lights
- Anti-Scalp Rollers
- Foldable ROPS
- Cup Holder

OPTIONAL EQUIPMENT

- Mulching Kit
- Canopy: Available with Fan, Sunshade and Lights
